

# ROXIE

## PORTABLE POP UP DIGITAL POSTER

Self-contained indoor display that comes with a base stand and wheels. Can be interlinked and combined (up to 6 units) to create a larger display for unique situations and special events.

## APPLICATIONS

- Retail, Shopping Malls
- Hospitality, Hotels, Restaurants
- Education, House of Worship
- Museums, Exhibits, Theme Parks
- Convention Centers, Event Spaces

## VERSATILE BRIGHTNESS

Provides normal and highlight brightness modes. Highlight mode achieves a brightness level of up to 6000cd/m<sup>2</sup>. This ensures visibility in any lighting condition, making it the perfect pop up display for a wide array of applications.

## CONNECTIVITY & MANAGEMENT

Equipped with built-in WiFi, providing real-time and cluster management. Enables you to manage multiple units simultaneously and effortlessly.

## THIN PORTABLE DESIGN

Ultra-thin and portable, this design makes it easy to move to different locations with the included casters. The sleek, bezel-less screen provides an infinity feel, delivering an incredibly immersive viewing experience.

## FLEXIBLE CONFIGURATION

With the ability to link multiple posters together (up to 6 units), you can create a larger, cohesive wall display. This flexibility allows you to customize your signage to fit the needs of any space. The cabinet size of each unit is 600x1687.5mm.

# SPECIFICATIONS

## REMARKS

Power consumption tolerance:  $\pm 15\%$ , according to the actual situation. Pensar LED LLC, reserves the right to modify specifications and parameters without further notice.
