SLICK

Seamless Design. Limitless Perspective.

delivers an expansive visual canvas designed to transform any space into an immersive environment. With an extremely wide viewing angle of 160°, it ensures every seat in the room is the best seat, offering flawless clarity from any perspective. Available in monumental 108", 136", and 162" sizes, the Slick series combines sheer scale with refined aesthetics.

Powered by 18-bit+ image processing, TFP Slick provides breathtaking color depth and precision. Its innovative fast-lock alignment system allows for a perfect, seamless finish during installation, whether mounted to a wall or used as a striking freestanding display

TAA
COMPLIANT

TAA compliance ensures that products are manufactured or substantially transformed in countries approved by U.S. trade agreements. This certification is essential for government, military, and public sector projects, guaranteeing eligibility for federal procurement and compliance with U.S. regulatory standards.

Description	108	136
Pixel Pitch (mm)	1.2	1.5
Led Type	SMD1010/Flip Chip COB	
Size Cabinet (m)	2.4x1.4	3x1.7
Size Cabinet (in)	94.4x53.2	118x66.5
Pixel Cabinet (dots)	1920x1080	
Weight (lbs)	242 (without case)	378 (without case)
Brightness (nits)	800-1200	
Grayscale	14-16	
Refresh Rate	3840	
Viewing Angle (degrees)	160Hx160V	
Contrast	5000:1/10000:1	
AC Voltage	100/240	
Power Max/Avg (watt)	2592	4050
IP Rating	30	
Maintenance	Front	
Installation	Deployable/Transformer
